SUMMARY

Results-driven Backend Developer with 5+ years of experience designing and scaling high-performance backend systems with Laravel, PHP, and cloud infrastructure. Proficient in API development, security integration, and payment systems for industries like e-commerce, fintech, logistics, and advertising.

KEY ACHIEVEMENTS

- Improved backend performance by 40% through optimization and caching.
- Built real-time transactional systems and robust admin control dashboards.
- Integrated 2FA, secure gateways, and role-based access control across platforms.

EXPERIENCE

AdClickGo - Fullstack Developer (Jan 2022 - Present)

- Built scalable apps using Laravel and Vue.js; implemented wallets, ads, rewards.
- Integrated Firebase FCM, Laravel Passport, and Telegram Mini Apps.

SoleCapsule - Backend Developer (Feb 2023 - Present)

- Developed vendor wallet logic, caching, and payment integrations for e-commerce.

Freelance PHP/Laravel Developer (Apr 2020 - Present)

- Delivered 30+ platforms including CMS, fintech, and ecommerce systems.
- Created blog with 40K monthly views and automated deployments.

KodaPay - Backend Developer (Jul 2020 - Dec 2021)

- Developed financial APIs, managed uptime, deployments, and transactions.

Shakuma - Backend Developer (Apr 2019 - Jun 2020)

- Improved load speed and delivered CMS solutions for content platforms.

SKILLS

Laravel, PHP, JavaScript, HTML, CSS, jQuery, Bootstrap, MySQL, PostgreSQL, AWS, Git, GitHub Actions, CI/CD, Linux, Bash Scripting, REST APIs, JSON, Webhooks, FCM, Node.js (Basic), Python (Learning)

PROJECTS

- AdClickGoBot - Laravel API + Flutter App with wallet, ad campaigns, Telegram Mini App integration.
- Drivon - Multi-role delivery system with real-time tracking, wallet, and scheduled orders.
- HostAm - Static hosting platform with cPanel-style file manager and secure upload system.
- WipPay - Laravel crypto gateway with webhook deposit tracking and QR address generation.
- AI Forex Bot - Python bot using MT5, SMC, sentiment analysis, and ML classifier.

EDUCATION

BSc. Software Engineering - ALX SE, Remote (Completed May 2024)

BSc. Computer Science - LASUSTECH, Lagos (Expected Aug 2027)
